

- I. Intro
  - A. Hook
  - B. Bridge (Debate/Common ground)
  - C. Thesis/ Forecasting : Free college tuition is a necessary opportunity for people to gain success in society and to compete in today's economy. Free college tuition would provide assistance for low-income students, improve the economy, encourage higher enrollment and graduation rates, and eradicate the already falling financial aid systems.
  
- II. Research has proven that a college degree is the best means to compete in the economy of the 21<sup>st</sup> century; however, this opportunity is not available to everyone.
  - A. Support
  - B. Evidence
  - C. Support
  
- III. Free college tuition would eliminate student loan debt, which would increase the chance for entrepreneurship.
  - A. Support
  - B. Evidence
  - C. Support
  
- IV. With the enrollment and graduation rates plummeting, free college tuition would cause a new rush of college applicants and graduates.
  - A. Support
  - B. Evidence
  - C. Support
  
- V. With financial aid systems failing across the country, opponents of free college tuition might have the right idea by replacing defective higher education funding operations with newly upgraded, high efficiency systems. However, free college tuition would allow universities to get rid of financial aid altogether.
  - A. Support
  - B. Evidence
  - C. Support
  
- VI. Conclusion
  - A. Restated position
  - B. Significant statement
